## Professional Summary

Final-year Computer Science Engineering student (CGPA 9.35) and winner of the IBM Expert Labs National Hackathon 2026, with hands-on experience across full-stack web development, machine learning, and generative AI tools. Skilled at building and shipping end-to-end projects independently, from data pipelines and predictive models to responsive, API-driven web applications. Looking for a Software Engineer role to apply strong problem-solving and collaboration skills to real-world engineering challenges.

## Education

## Achievements & Certifications

- IBM Expert Labs National Hackathon 2026 – **Winner**
- Data Science For Engineers – NPTEL (October 2026)
- Prompt Engineering – Infosys Springboard (Jan 2025)
- Grassroots Innovation Internship Scheme – Govt. of Jharkhand (July 2026)
- Fundamentals of Object Oriented Programming – NPTEL (May 2025)
- ServiceNow Administration, Agentic AI & Flow Designer – ServiceNow University Virtual Internship (April 2026)
- Salesforce Trailhead – Anypoint Platform (DEX 401) and Administrator Credential Prep
- Sql Basic – Hackerrank (May 2025)
